**What is EDI**

Equity
Diversity
Inclusion

RDI

RAINBOW DIVERSITY
INSTITUTE

Equity

Changing our relationships with power so that we can openly discuss and question who has it, when, how, and at what cost. Then ensuring that action, accountability, and redistribution of power goes beyond token efforts that lack sustainability.

Diversity

Ensuring diverse representation at all levels within communities and organizations. Go beyond checking boxes: identify and correct the barriers that support unequal and institutionalized access to power and privilege.

Inclusion

Every decision and direction must be based upon equally powerful representation from a wide range of experiences, backgrounds, and demographics.
